## WORK EXPERIENCE

---

### Full-stack developer ALLCARTA

Juin 2023-Present

Tunis,Tunisia

- Developed scalable Django APIs, enhanced UX with React.js, optimized platform performance, and implemented TDD and CI/CD in an agile environment.
- Clients : Esprit, Mediterranean School of Business (MSB), Central University Tunisia, Collège LaSalle.
- Built complete full-stack E-commerce platform with Node.js/Express.js backend, responsive Bootstrap/JavaScript frontend, MongoDB database with GridFS file storage, implementing JWT authentication, role-based access control, automated image processing pipeline with Sharp.js, admin dashboard, advanced search with full-text indexing, bulk operations, and production deployment on OVH Cloud with comprehensive testing and enterprise security.

### Full-stack developer Intern ALLCARTA

Jan 2023 - May 2023

Tunis,Tunisia

- Assisted in building RESTful APIs with Django, developing UI components with React.js, and integrating third-party services while collaborating in an agile team.

## PROJECTS

---

- **PetVille:** Designed and implemented a website using Django, Python, HTML, CSS, Bootstrap, JavaScript, jQuery, Linux, Nginx, Gunicorn, and REST API. The platform, developed from scratch, serves as a professional communication tool for pet owners and pet sitters, facilitating seamless interaction.
- **Football-Style:** Developed responsive e-commerce site with HTML, CSS, Bootstrap. Integrated user authentication via Firebase. Implemented user-friendly shopping cart with real-time updates.
- **React Pocket Movie App:** Developed a ReactJS app to manage favorite movies and a watch-later list using React Hooks, Router, Axios, and JWT Authentication. Implemented frontend design and integrated with a backend server via Docker.

## ORGANIZATIONS

---

- **IEEE** Recognized for personal and professional commitment to advancing technology.
